

**DESCRIPTION:**

Liquid Intelligents 300 Tyre and Rubber Dressing is a protective non-silicone coating for vinyl and rubber that contains a special blend of natural oils to leave a long lasting shine. Liquid Intelligents 300 Dressing may also be used on, plastic bumpers, mouldings, tyres and rubber in cars, trucks, and boats.

CHARACTERISTICS:

Features: Liquid Intelligents 300 Tyre Protector is a natural oil emulsion with an ultra violet barrier added to help prevent fading of vinyl.

Benefits Provides a rich natural lustre to components. Will Not stain painted surfaces or "sling" if properly applied. A dressing for those that prefers a natural appearance.

Directions: Spray on or pour on to a sponge or soft cloth and apply to component to be dressed. Wipe away any excess.

Tech Tip: For best results make sure that component to be treated is clean and dry.

Use For: Vinyl and rubber in cars, trucks, boats and recreational vehicles.

Directions: Apply evenly to all interior vinyl surfaces using a sponge or lint free soft cloth. Tech Tip: If product beads or "fish eyes", a silicone release agent or dressing has been used on the material. This can easily be removed with a general purpose cleaner.
